

Set your learners activities on Human or Physical Geography

- And focus on developing their Geographical Skills...

## Set a Range of Activity Types:

**Real World Activities** - with actual examples, in applied contexts

**Revision Activities** - to review and check learning

**Test / Exams** - text-based exercises

**Share Activities** - created by your colleagues across the country

*All of these are marked for you*

*- and you can see progress reports in moments!*

**Question Level Analysis** will show you where gaps are:
