

Set your learners activities on British or International History

- Or focus on themes including medicine or migration...

Set a range of tasks:

**Revision Activities** -  
to review and check  
basic learning

**Test / Exams** -  
text-based exercises  
with levelled mark  
schemes for in-depth  
answers

**Share Activities** -  
created by your  
colleagues across the  
country

*All of these are marked for  
you - and you can see  
progress reports in moments!*

भारत छोड़ो

British settlement has played a huge  
role in the history and formation of  
countries around the world.

Use activity creator to  
**personalise your  
own assessments**

- Use your own *source material* as a basis for questions... pictures of artefacts or even sound clips
- Turn your old worksheets into interactive (*self-marking*) activities
- Link to *YouTube* videos or websites (e.g. documentary clips)
- *Edit existing activities* to make them just right for your learners - e.g. 8 or 12 mark questions

Create your own **Classroom Intervention Groups** - to set and monitor the work of targeted learners.
